Personal statement

An enthusiastic computer applications student with a strong foundation in technology. I am dynamic, self-disciplined, flexible, and trustworthy, consistently completing tasks to a high standard. As a high achiever with excellent academic grades, I am eager to gain skills and experience through this job. If hired, I will showcase my skills and achieve set goals within stipulated timeframes. I am committed to working honestly and diligently for the company.

Experience

Nadiifiye Management System

06 April 2024 - 16 April 2024

Collaboratively developed the Nadiifiye Management System, a platform to manage and coordinate cleaning activities. Implemented key features such as user registration, task assignment, and progress tracking using JavaScript, Node.js, React, and MongoDB.

Murzali Platform website

01 Feb 2024 - 06 Feb 2024

Independently built the Murzali Platform website using WordPress, an education website offering life coaching lessons. Integrated functionalities like course listings, user registration, and content management.

Achievements

- Consistently ranked top student from primary school through university, reflecting my dedication and academic excellence.
- Secured a top 100 position in the 2023 IEEExtreme 17.0 programming competition, showcasing my programming skills.
